

One Connection Changes Everything

jcmglobal.com

Everything you thought a slot machine could do has changed. That's because industry-leading transaction supplier JCM Global has unleashed the power of its new and transformative FUZION™ technology, bringing with it heretofore unimagined potential, flexibility and profitability to the casino floor. With FUZION™, each slot machine has the potential to become a multi-line profit center with the potential to vend and redeem lottery tickets, conduct race & sports betting; conduct cross-enterprise promotional couponing; enable real-time currency exchanges; streamline tax forms processes; facilitate Daily Fantasy Sports wagering ... and much more. This technology creates a one-stop multitasking gaming machine allows players to do all this without having to leave their seat. One Connection for the player access the widest range of games and services.

FUZION also includes Mobile I/O™ technology. This allows casinos with legacy, reel spinners, or any games without picture-in-picture to use FUZION, by enabling the player to connect with the game via smartphone through JCM's Intelligent Bezel. This technology expands the FUZION potential to all types of slot machines. "We're taking out-of-the-box thinking to a new level by connecting the iVIZION® bill validator and GEN5™ printer to the casino management system, and unleashing dramatically more processing power and flexible functionality," said JCM Global Vice President of Worldwide Marketing Tom Nieman. "With FUZION, operators can work with their existing CMS provider to have the ability to re-think everything, connecting more profitability to the floor and increase player convenience."

"You can take your smart phone, you tap it to the bill validator bezel, the plastic piece around the bill validator—and now your phone digitally plugs into the slot machine (via Bluetooth)," Nieman said. "Now when your mobile device is in close proximity to the slot machine, you can do all of the things that you would be able to do on the video screen attached to the newer machines. And if you walk away, the communication is disconnected automatically."

FUZION has the potential to unleash many game-changing features, including:

- **LOTTERY READY:** Sell and redeem lottery tickets at each and every EGM and even trigger promotional messages before large lottery jackpot draws, allowing players to use existing credits or conduct a standalone purchase.
- **RACE & SPORTS ENABLED With FUZION:** each EGM could be used to place race and/or sports bets and print a standard wager ticket. FUZION also gives casinos the ability to enable Fantasy Sports betting, their own or a third party's.

- **PROMOTIONS:** Ties the enterprise together with system-generated promotions, instantly delivered right to the player, including drawings, collectible promotions, F&B offers, special events and carded or uncarded player outreach.
- **CURRENCY EXCHANGE:** The iVIZION bill validator accepts the world's currencies, and FUZION empowers multiple currency acceptance, with exchange rates that could be preset or could be real-time.
- **TAX FORMS:** Print system-generated tax forms and deliver required documentation to the customer while the back-end system stores the signature forms and data that needs to be delivered to the IRS.

With FUZION, JCM has unleashed the power of "what if ..." Connect with the future, because one connection will change everything.
